# HEALTHY LIVING: MAINTAINING EQUILIBRIUM: DEBUNKING HEARING & BALANCE MYTHS

**With: Dawn Boyce Au.D., FAAA, CCC/A**

**Friday, October 28, 2016**

**Schine Meeting Room**

**11:45 am – 12:30 pm**

Does hearing loss affect your balance?  
Could problems with your inner ear along  
with other causes contribute to a balance  
disorder?

Join us on Friday, October 28th at 11:45 am to  
learn how the inner ear is related to  
hearing and balance. Dawn will break down  
and expose the myths of association between  
hearing and balance. She will explain how  
multiple organs in your body work together  
for balance control and how the ears play an  
active part in maintaining your balance.
