

Information about:
DSI's Global Disability Changemakers Facebook Group

This facebook group is for organizations on DSI's Global Disability Directory and people that work at them.

It is focused on people in less developed countries in many different areas of the world.

This group is a place to encourage each other, share ideas, and support each other.

This is a public group on facebook. Anyone can find it, but you must do disability work to join the group.

In the group you can:

- Talk about disability issues.
- Share your work and encourage others.
- Ask questions and share information.

You must always:

- Be kind
- Be inclusive of all people

You may not:

- Ask for donations.
- Use other people's pictures or words without asking them for permission.

You must answer 3 questions to join. They are:

1. What is the name of the organization you work with?
2. Are you currently listed on the Directory?
3. Do you agree to follow the rules?

DSI team members watch this group and post too.

We are very happy to have you in the group. Welcome!
