## **COMMUNITY-ENGAGED SCHOLARSHIP AT UNCG: WHAT IS IT? HOW CAN I BUILD MY SCHOLARLY AGENDA? HOW DOES IT FIT IN WITH ANNUAL REVIEWS AND PROMOTION/TENURE AT UNCG?**

*Tuesday, 10/28/14, 12 pm - 1:00 pm, 1607 MHRA Building*

Do you believe that a life of both the mind and the heart are essential to health and happiness; collaboration improves outcomes; excellent teaching, service, and research are each crucial aspects of scholarship; solutions to the pressing issues of our times requires knowledge exchange and partnerships between academics and non-academics; and YOUR scholarship can or does contribute the vibrancy, health, and safety of communities in important ways? If you answered YES to these questions, you may be interested in joining Emily Janke, Ph.D., Director of the Institute for Community and Economic Engagement, for a brown bag lunch conversation. We will share more about community engagement at UNCG - what it is, how to do it, how to find out more about it, who are potential partners, and how to begin documenting it for annual reviews, as well as promotion and/or tenure. The Institute for Community and Economic Engagement serves multiple areas that are critical to supporting a culture in which the knowledge and resources of all stakeholders (faculty, staff, students, and the community) are sought, valued, and respected. These areas include supporting faculty development on the Community Engagement aspect of promotion and tenure policies and practices that recognize community-engaged scholarship, advising individuals, departments, and programs that wish to enhance teaching, learning and other forms of scholarship through reciprocal partnerships, and developing publications and using social media venues to share the incredible work and partnerships of which UNCG members are a part. Can't make it? Visit their website to support your community-engaged scholarship at UNCG and beyond: <http://communityengagement.uncg.edu/reports.aspx>.
