

# VIRTUAL FALL 2020

This is your chance to engage in virtual face-to-face time using the ZOOM platform and be led through traditional Coyote icebreakers, demonstrations, discussions, and reflections. You'll have the opportunity to interact with your instructor and your peers "real-time" during that daily two hours. At the end of the 2 hour-long, interactive ZOOM session, you'll be assigned 1-1.5 hours of creative project work that you'll be expected to complete independently prior to your next ZOOM session. You'll also have the opportunity to submit daily progress checks that your instructor will respond to directly. Instructors will incorporate technique, critique, and interactive teaching in each session. It'll look JUST like a Studio Coyote class, only your friends will be on your screen and your art will be in your home!

## Weekend Series Options: October 24/25 - December 12/13 (Saturdays or Sundays)

### Saturdays // 9:30am - 11:30am

#### COOKING: REGIONS OF THE USA

**Dates:** October 24 - December 12

**Time:** 9:30am – 11:30am

**Teacher:** Dawnula Koukol

**Tuition:** \$0-\$330 (tuition includes ingredients kit to be picked up each week at Coyote before session)

**Course Description:** Take a good look at how different regions of the US have their own classic dishes that put them on the food map. You will be making: Cilantro rice and Huevos Rancheros, New England corn chowder, Shrimp and Grits, Cincinnati Chili, Baked salmon and Miso butter in foil packets. It is your chance to work with a professional chef to get the truth about why you can't beat regional home cookin'.

#### PODCAST PRODUCTION

**Dates:** October 24 - December 12

**Time:** 9:30am – 11:30am

**Teacher:** Gavin Reub

**Tuition:** \$0-\$280

**Course Description:** More than half of the country has listened to a Podcast – is it time to make your own? You will have the opportunity to explore radio-drama stories and launch a pilot for your very own podcast! You will have fun learning how to interview, record audio, and edit. The Goal: you will have recorded a pilot for a new non-fiction podcast focused on a topic of your choosing, as well as a script for radio drama. Writers, performers, future talk show hosts, and beyond are welcome!

#### AFRICAN DANCE + STORIES

**Dates:** October 24 - December 12

**Time:** 9:30am – 11:30am

**Teacher:** Etienne Capko + Won-Ldy

**Tuition:** \$0-\$280

**Course Description:** Travel to Africa this fall, learning some basic West African dance moves with Etienne from Benin. You'll get better and better at your tempo and timing as you put movements together to create show-stopping dances that are a lot of fun! You'll also be entertained with African stories told by Won-Ldy, a master storyteller from Liberia. In addition to keeping you laughing, Won-Ldy will lead some crafts activities. No prior dance experience necessary; all you need is your bare feet, an open floor to dance.

### Saturdays // 12:30 - 2:30pm

#### FASHION: UPCYCLE ADORNMENT

**Dates:** October 24 - December 12

**Time:** 12:30 – 2:30pm

**Teacher:** Britt Rynearson

**Tuition:** \$0-\$225 (tuition includes class materials to be picked up the week prior to the course)

**Course Description:** Join us for an exciting week to learn many ways you can use old clothes to make new fashionable creations. You will re-design and decorate jackets, shirts, bags, and anything you have at home that needs a fresh look. Your instructor will guide you through hand sewing, designing the look, and adding color or bling to the surface of the cloth!

#### SING WITH A PROFESSIONAL

**Dates:** October 24 - December 12

**Time:** 12:30 – 2:30pm

**Teacher:** Erica Merritt

**Tuition:** \$0-\$280

**Course Description:** This course is all about strengthening your vocal talents. You'll develop skills and techniques that professional singers use. Learn to sing with confidence and from the heart! Practice expressing the emotions behind the lyrics you sing. Explore how improving your pitch, tone, timing, and breathing methods can better your overall performance. Participants will practice giving and receiving constructive feedback. All levels are welcome, as it is all about moving forward from wherever you are in your creative journey. Let's go!

#### ARCHITECTURE: MAPPING + MODELING

**Dates:** October 24 - December 12

**Time:** 12:30 – 2:30pm

**Teacher:** Ian Crozier

**Tuition:** \$0-\$300 (tuition includes class supplies to be picked up the week prior to the course)

**Course Description:** You'll learn basic 2-D and 3-D techniques to bring architectural designs to life. You'll practice the design process: drawing out and refining your ideas; mapping the surroundings to understand how they fit; and creating 3-D models to transform them into reality. For the final project you'll design and build your own solution to a challenge facing our urban community. While you are at it, you will learn techniques to communicate your big ideas about design.

### Saturdays // 3:30 - 5:30pm

#### PHOTOGRAPHY ON YOUR PHONE

**Dates:** October 24 - December 12

**Time:** 3:30 – 5:30pm

**Teacher:** Zorn Taylor

**Tuition:** \$0-\$280

**Course Description:** Using camera apps on your cell phone you'll learn what the camera you keep in your pocket can do. You'll learn many technical and creative skills to develop your eye for creating great images. You'll explore phone editing apps to edit and manipulate your images on your phone to enhance, manipulate, overlay, crop, rotate, resize, and edit your shots. This is where your own unique photographic statements will be made!

#### ELECTRONICS

**Dates:** October 24 - December 12

**Time:** 3:30 – 5:30pm

**Teacher:** Andy Peterson

**Tuition:** \$0-\$330 (tuition includes class supplies to be picked up the week prior to the course)

**Course Description:** Have you ever made anything that lights up when you press a button? How about a tone-generating musical instrument? In this hands-on course you'll do these and more! You'll learn to make noise with synthesizers, light things up with LEDs, modify circuits with real electronic components and gain an understanding of what's happening when you hook wires up to a battery! You'll learn basic concepts in circuitry by building devices and through exploratory dismantling. It doesn't matter if circuit-boards are a mystery to you now, you'll get a basic understanding of what's at the heart of a noise-making toy by creatively glitching circuits to make weird and exciting noises.

#### PERFORMANCE POETRY

**Dates:** October 24 - December 12

**Time:** 3:30 – 5:30pm

**Teacher:** Nansi Dwendi

**Tuition:** \$0-\$280

**Course Description:** Find your voice through the power of poetry! This class will take you on a tour of poetic styles and forms from around the world and show you how to make them your own. By the end of this class you will know how to interpret poetry, cultivate your stage presence, and write and perform your own words for the stage and screen.

#### PAINTING WITH THE MASTERS IN MIND

**Dates:** October 24 - December 12

**Time:** 3:30 – 5:30pm

**Teacher:** Timothy Siciliano

**Tuition:** \$0-\$325 (tuition includes class supplies to be picked up the week prior to the course)

**Course Description:** You'll work with a professional painter to develop your skills through the help of well known painters whose unique approaches have gained much attention and established their giant reputations. Each week you will take a good look at the artworks of one of them to study their styles and painting techniques, and then go on to experiment and apply those techniques to your own work. Painters like David Hockney, Kehinde Wiley, Roy Lichtenstein, and Yayoi Kusama will be the sources of your exploration for gathering new painting techniques to add to your current talents.

### Sundays // 12:30 - 2:30pm

#### PHOTOGRAPHY ON YOUR PHONE

**Dates:** October 25 - December 13

**Time:** 12:30 – 2:30pm

**Teacher:** Chloe Collyer

**Tuition:** \$0-\$280

**Course Description:** Using camera apps on your cell phone you'll learn what the camera you keep in your pocket can do. You'll learn many technical and creative skills to develop your eye for creating great images. You'll explore phone editing apps to edit and manipulate your images on your phone to enhance, manipulate, overlay, crop, rotate, resize, and edit your shots. This is where your own unique photographic statements will be made!

#### FASHION: PRINT + HAND SEW

**Dates:** October 25 - December 13

**Time:** 12:30 – 2:30pm

**Teacher:** Angela Flowers

**Tuition:** \$0-\$320 (tuition includes class supplies to be picked up the week prior to the course)

**Course Description:** It's called hand sewing with needles, threads, and great fabric! There are tricks -- there are fancy stitches -- there are ten moments and there is an ancient tradition! Each week you'll work on projects that you could finish in a day: patches for your jeans or jacket, art for your wall, balloon stuffed animals, a zippered pouch and a felt keychain.

#### COMEDY MAGIC

**Dates:** October 25 - December 13

**Time:** 12:30 – 2:30pm

**Teacher:** Ruben Barron

**Tuition:** \$0-\$210 (tuition includes class supplies to be picked up the week prior to the course)

**Course Description:** Learn the secrets that started David Copperfield on his road to fame. You'll do magic with coins, cards, sponge balls and ropes and - don't forget - mind tricks. What a way to entertain your family during these times -- plus, you'll have plenty of time to perfect your tricks!

#### COMICS + CARTOON DRAWING

**Dates:** October 25 - December 13

**Time:** 12:30 – 2:30pm

**Teacher:** Isabelle Marshall

**Tuition:** \$0-\$305 (tuition includes class supplies to be picked up the week prior to the course)

**Course Description:** Love reading graphic novels and comics? Inspired to make your own? In this course you will explore the magic of words and pictures and see just what amazing things happen when you put them together. You will dive into drawing expressively, creating characters and telling stories. Make sure to bring your humor and your sense of adventure.

### Sundays // 3:30 - 5:30pm

#### COOKING: STREET FOOD SNACKS

**Dates:** October 25 - December 13

**Time:** 3:30 – 5:30pm

**Teacher:** Elon Wagoner

**Tuition:** \$0-\$330 (tuition includes ingredients kit to be picked up each week at Coyote before session)

**Course Description:** Right there in your own kitchen you'll cook up some of the best of all street foods and find out why they are so very popular, whether from Italy, Pakistan, Trinidad, Korea, or Vietnam. Trust Chef Elon - he knows delicious and how it will work in your kitchen.

#### ACTING + THE POWER OF MONOLOGUES

**Dates:** October 25 - December 13

**Time:** 3:30 – 5:30pm

**Teacher:** Allyson Brown

**Tuition:** \$0-\$280

**Course Description:** "All the world's a stage!" Ever wondered how many ways you can say the same phrase? You'll discover that, and more in this class! Get ready to work with a talented professional actor while incorporating various acting skills that will make your monologues and scenes increasingly impactful as you explore! Along with powerful messaging and character development, you will get the chance to perform comedy, satire, or serious drama - it's up to you! Get ready for ensemble building, training from a professional actor, and loads of fun!

#### STOP MOTION ANIMATION

**Dates:** October 25 - December 13

**Time:** 3:30 – 5:30pm

**Teacher:** Isabelle Marshall

**Tuition:** \$0-\$280

**Course Description:** Every cartoon from Looney Tunes to Pixar starts from the very same basic ingredients. This week you will gather materials from around your home to create stop-motion animation. Legos, action figures, paper cut-outs -- your film stars will be up to you! The sky is the limit when you get to be the director of your own short movies.
