

# BAPTIST Babies!

2021 PROGRAM  
& REGISTRATION  
INFORMATION

At Baptist Health Care, you'll find our team feels childbirth care is a special calling. Baptist Women's Center offers you choices to tailor your experience from early pregnancy to your baby's birth. Our experienced team of nurses and educators are specially trained to make your birthing experience truly one of a kind. Baptist strives to provide a one to one nurse to patient ratio with active labor patients. Our nurses will be by your side to give you the clinical and emotional support you need during your birthing experience.

## REGISTRATION PROCESS

To register for the following program, monthly series or a la carte classes, please register on-line at [ebaptisthealthcare.org](http://ebaptisthealthcare.org) or call 850.434.4567. If you are calling after normal business hours, please leave a detailed message including name, a good contact number and the class you are registering for and someone will call you back to confirm your registration and discuss payment options. **We encourage you to register early in your pregnancy to sign up for classes.**

## TOURS

# TAILORED EXPERIENCE BEFORE AND AFTER BABY'S ARRIVAL

As a mom-to-be, you want to have a customized labor, delivery and postpartum experience that is right for you. The Baptist Women's Center team is committed to creating a tailored birthing experience that aligns with your needs and wishes. We do this by pairing your indicated birth preferences with the latest safety standards to create an environment that helps you relax and enjoy the journey of childbirth. Discuss a birth preference list first with your physician. Then bring the completed preference list form to your nurse when you arrive at Labor and Delivery. Mobile devices and other comforts of home are permitted. Free Wi-Fi is conveniently provided through Baptist Hospital.

Friends and family may attend the birth. For the best delivery environment, however, it's best to limit visitors to those who understand how to support you during labor. The arrival of your baby is an amazing event. Each birth is attended by a registered nurse who will examine your baby at your bedside. If your newborn is doing well, you will have unlimited time to become acquainted with your baby.

Baptist Women's Center has tailored services available for after the arrival of your baby. We offer breastfeeding services from a specialized registered nurse (R.N.) who is an International Board Certified Lactation Consultant. Our team is here to help make feeding your baby a fulfilling and positive experience.

Baptist Hospital promotes the benefits of breastfeeding for both mother and baby. We have your family's best interest in mind. Regardless of whether a baby is fed by breast or bottle, Baptist provides an environment that is supportive to your preferences. We offer various parenthood classes to help educate mother and baby on a healthy start. Thank you for choosing Baptist Health Care to serve you during this special time as a new mother.
