

## Have you or a family member been involved in Home Sharing? Tell us about Your Experience

---

Community Living BC (CLBC), the BC CEO Network, and a group of Home Sharing Providers have come together to form a Home Sharing Working Group. This group works together to make home sharing a better experience for everyone.

CLBC is asking for your feedback through a short survey, to help us better understand how we can make the matching process better for those interested in home sharing and how we can get better at responding when things go wrong.

If you, your family member or personal support network have experienced living in home sharing, please take this survey so we can hear from you and make changes based on your feedback. **Your voice matters!**

*\*The Survey is open now and closes on November 29th, 2020\**

This is an anonymous survey and should take 20 minutes to complete. Safeguards are in place to ensure your privacy. CLBC and our partner organizations will not be looking at individual answers.

Survey results will be used with results from earlier consultations that took place across the province. Once all feedback has been reviewed, learnings will be shared with our home share working group members so we can work together to develop solutions that are based on your feedback.

Recognizing that it may be challenging for some people to complete the online survey, we have set up virtual phone calls to help people with the survey. We have a group of Self Advocate Advisors on the call to work with you. Here are the dates and times for the calls:
