

THE CORNWALL COLLEGE GROUP

Due to a number of CV-19 cases at Bicton College, the remainder of our 2020 Rural Weeks programme has, reluctantly, been cancelled.

However, for those service leavers and veterans who have already registered for RXW34 and RXW35 we will be delivering a Virtual Rural Week (VRW) during the week when you would have been with us in Devon.

This is not intended as a substitute for a Rural Week, and as soon as we have the dates for the 2021 Rural Weeks at Bicton we will send them to you but in the meantime, you would be very welcome to join us for the sessions as per the Timetable opposite.

Virtual Rural Weeks (VRW) for service leavers and veterans consist of 3 days of presentations by our subject matter experts including advice about current and post CV-19 opportunities, networking, an introduction to our new Rural Employment Manager and instructions about follow-up.

The VRW, which were piloted earlier this year and successfully run through lockdown, will increase your knowledge about the many and varied opportunities throughout the UK for individuals who bring military skills and experience to the land-based sector.

Once you have confirmed your attendance for all 3 days, we will send you Joining Instructions and Zoom links.

Anna, Chris, Pete and Tim.

TIMETABLE:

Monday

- 09.30 – Group introduction.
Land-based opportunities for the ex military community in the UK.
- 11.30 – Landscaping and Heritage gardening.

Tuesday
