

TASK MANAGER

QA/QC, PUNCH, AND FACILITIES MANAGEMENT

Multivista Task Manager is there for every phase of your project's lifecycle. Coordinate QA/QC, knock out punch lists, and fast-track facilities management using Task Manager within Multivista's intuitive pictures-over-plans interface.

Unlimited Tasks. Unlimited Users.

COMPLETE MULTIVISTA INTEGRATION:

**BUILD IT.
MANAGE IT.**

TASK MANAGER

EFFICIENT WORKFLOW SOLUTIONS WITH DECADES OF VALUE

Multivista Task Manager is fully-integrated in the same pictures-over-plans platform that stores your project's visual data. Maximize efficiency by leveraging the inspection-grade documentation collected by Multivista to identify, validate, and resolve issues in seconds.

Punch List

	#	Category	Work Status	Item Status	Description	Location
<input checked="" type="checkbox"/>	25	WF	Complete	Open	Damaged EIFS	4th Floor bridge - 1
<input checked="" type="checkbox"/>	29	EL	Complete	Open	Missing receptacle	Rm 101
<input type="checkbox"/>	15	CK	In Progress	Open	Caulk corner under z flashing	Northeast Rotunda
<input type="checkbox"/>	18	PT	In Progress	Open	Touch up 5th floor balcony railings	5th Floor Balcony
<input type="checkbox"/>	22	PT	In Progress	Open	Paint Touch Up	4th Floor Bridge
<input type="checkbox"/>	31	CA	In Progress	Open	remove ceiling tiles stained	Rm 102

QA/QC LIST

- Create inspection and QA/QC checklists
- Report and dispatch deficiencies in seconds
- Create shareable reports and receive instant task notifications

PUNCH LIST

- Identify deficiencies using inspection-grade, Multivista-captured photos
- Upload additional files and images to validate completion
- Assign tasks to unlimited team members and outside contractors

FACILITIES MANAGEMENT LIST

- Troubleshoot and assign repairs using Multivista's visual as-built records
- Manage, dispatch, and report on operations and maintenance activities
- Link renovations, repairs, and inspection activity to the building plans
