

Mass production Adirondack Chair

Intro. To Tech. 9/12

Order Form

SPRING 2021

The Introduction to Technology Class grades 9-12 is doing a mass production woodworking Adirondack Chair project. Each student in the class can order 2 chairs max. The chairs can be bought by parents, grandparents, relatives, neighbors, or friends. The students don't need to buy a chair. We are going to treat this just like they do in industry and fill orders. And have many different job duties for students.

Shop supervisor

Quality control advisor inspector

Safety inspector

Business and marketing supervisor

And many other job duties

These chairs sell for over \$200 at many stores. The chairs will be sold for materials we have in them, they will be unfinished and made out of select white pine. The cost for our chairs is \$42.50 each. Primed and painted chairs will be \$50 each circle color below
