

Photograph Organization Checklist

With thoughtful planning, your move can go smoothly. Be sure to discuss any organizing needs with your Personal Relocation Manager for ongoing support.

If you have photographs tucked away in bins and drawers, you will likely wonder where to start as you downsize your home. This checklist provides you with tips and ideas to consider when preparing to organize your photographs.

First, you will need to decide your goal:

- Preservation for family
- Organization for easy reference
- Completed albums for walks down memory lane
- Digitalization for backup and sharing
- Selection of favorites for display
